To the Superintending School Committee:

Submitted herewith is my annual report of the schools of Industry for the fiscal year 1944-45.

An examination of the financial statement accompanying this report will show rather large overdrafts in most of the school accounts. This is due primarily to three factors: — first, the increased cost of transportation due to a somewhat abnormal fluctuation of school pupils; second, to increased costs in high school tuition; and third, because the town meeting of 1944 did not raise for school purposes the money called for in the prospective school budget. Town officials have been generous and lenient in granting these overdrafts and, of course, this policy can be continued if that is what the citizens desire; however, it can hardly be called a sound economic policy. For the coming year these overdrafts should be taken care of by appropriations for that purpose and sufficient additional money should be raised to operate the schools properly. An examination of the attached budget will show that appropriations for next year must be considerably larger if these overdrafts are to be taken care of and the schools satisfactorily maintained. This budget is set up on the basis of present costs for teaching, conveyance and high school tuition. These are the largest items in the budget and in addition to these sufficient money should be raised to care for the other items of school costs.

Some difficulty has been experienced during the past year in securing desirable teachers at Industry. At the present time our teachers are doing very satisfactory work at salaries of a little over \$1,000.00, each a year. Should we be compelled to secure other teachers, it is quite improbable that we could find equally as good at this same salary. I deem it wise to point this out, for our budget does not take care of increased costs for this item.

It still appears not to be advantageous to operate schools at both Goodridge Corner and Allen's Mills and the moving of the Goodridge Corner School to Allen's Mills seems to be a wise thing at the present

time. If, however, school is to be continued in this building for any length of time, additional windows should be added and rearranged so that more direct sunlight is admitted to the room during a greater part of the day. The artificial light should also be improved.

The following tabulation gives the enrollment in the Industry schools as of January 1, 1945.

	S.P.	1	2	3	4	5	6	7	8	Total
West Mills	3	1	2	2	2	2	3	3	2	20
Allen's Mills	1	5	3	5	4	1	5	4	2	30
Total										50

In addition to the above the following pupils have been attending high school during the fall term:

Barbara Barker	Wilma Kyes
Barbara Beale	Betty Rackliffe
Ralph Claffin	Maurice Walker
Harold Kyes	Reginald Walker
Greta Wilson	

Attached to this report is a prospective budget and a financial statement of school accounts. In the financial statement all overdrafts and balances for 1944 have been adjusted to agree with the auditor's figures.

Respectfully submitted,

J. ARTHUR GREEN,

Supt. of Schools.
